Quality - Innovation - Superiority

Guglielmo Marconi University is a world-class university that relies on using of innovative teaching methods and adheres to an approach based on interdisciplinary knowledge, skills and abilities. Nowadays our university community has about 16,000 students enrolled in Bachelor's and Master's programs, 300 teachers and more than 200 scientific consultants.

The University is located in the very heart of Rome, near the Vatican, and has many branches in Italy and abroad, thanks to which Italian and foreign students can take the final exam and defend their diplomas without leaving their country of residence.

Guglielmo Marconi University is **officially recognized by the Italian Ministry of Education, Universities and Researches and Accrediting Council for Independent Colleges and Schools (ACICS)**, which is affiliated with the US Department of Education and the US Higher Education Accreditation Council.

That is why Guglielmo Marconi University programs are recognized not only in Europe, but also in the USA and our students have a large variety of career opportunities in many countries.

What are the advantages of Guglielmo Marconi University?

- 
- The only one Italian university that received accreditation in the USA
 - Programs in different languages
 - Highly qualified teaching and administrative staff
 - 96.39% of students successfully complete their studies
 - Individual support throughout the whole training period
 - Access to educational resources at any time and in any place
 - Individual payment schedule, compiled in accordance with the student's capabilities
 - Broad career opportunities

E-Learn Expo Moscow

Guglielmo Marconi University took part in the contest "The best e-learning solution in higher education institutions and training centers", which was held in Moscow as part of the tenth exhibition and the E-Learn Expo international conference on new technologies in sphere of education in companies and universities, and received the first prize for the best e-learning solution among foreign universities.

The event, held under the aegis of the Ministry of Education and Science of the Russian Federation, brought together the best Russian and foreign specialists in the field of information, education and communication technologies.

The e

At the exhibition "**EduTech - Education 3.0**", held from October 31 to November 2, 2013 in Moscow, Guglielmo Marconi University presented the virtual laboratory "Retaining walls" and became the winner in the nomination "Electronic educational resources in the university."

Study as you like

For students of all ages, the university offers a flexible and convenient model of studying that provides constant communication with faculty and individual curator services, and also provides access to interactive assessment tests, simulations and the most modern virtual laboratories.

Training methods

Education system of Guglielmo Marconi University is based on a combination of rich European educational traditions and modern technologies. Our educational model offers students both a distance and a mixed form of studying, in which interactive activities are combined with classical seminars, laboratories and communication with the curator.

Distance learning is provided through the integrated multimodal system - **Virtual C@mpus**, which is the result of the university's advanced research in the field of educational design and digital technologies. This platform gives to students access to multimedia educational materials placed on the network (audio and video lessons, virtual labs, simulations, analysis of exact examples and situations, tests).

Entrance

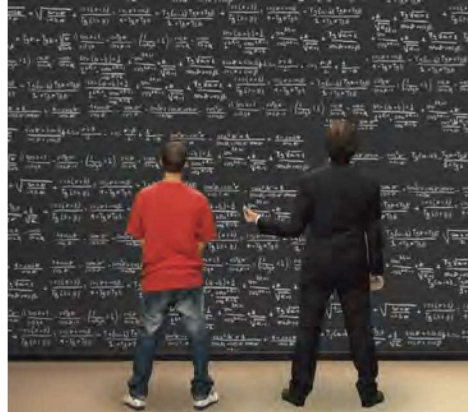

Entry to the university is held all year round

The Admissions Committee of the University provides individual services to Italian and foreign students, advising them on the various opportunities for studying in Bachelor's and Master's programs and helping them register and prepare all necessary documents.

Scholarship from 20% or more for qualifies students

Guglielmo Marconi University attracts students from all over the world. The program of scholarship is based on an individual selection system that encourages the merits and abilities of students.

Guglielmo Marconi University constantly conducts research and experiments in the field of innovative teaching methods. Since its foundation, the University has developed and implemented more than 60 international research projects that have ensured a continuous improvement in the quality of education programs and have allowed the University to expand its presence around the world.

GUIDE

In 2005, Guglielmo Marconi University founded the GUIDE Association - Global Universities In Distance Education - for the development of international cooperation in the field of distance education throughout the world. The Association, which is currently joined by more than 160 universities from around the world, is a key tool for promoting and sharing innovative results and best practices in the field of distance and mixed education.

«My name is Nedim, I'm from Bosnia and Herzegovina. This year I finish my studies at the University named after Guglielmo Marconi. I can say only good about my education. Teachers are excellent, excellent administrative staff, and the curators to which I have been attached, always respond to my e-mails and solve all the issues that arise. The programs are designed in such a way that the student has enough time for study, and working students can decide independently when to study»

Nedim Yasic, Bosnia and Herzegovina

”

«Having entered in the Master's program in International Business Administration, I appreciated the flexibility and professionalism of the University's teachers and was able to easily combine study and work with an individual curriculum. I recommend Guglielmo Marconi University to everyone who wants to study on a high-grade Master's program, having organized their time as efficiently as possible»

Vanessa Krause, Germany

«My name is Natalia, I'm from Poland. I study on a Bachelor's program in economics at Guglielmo Marconi University. I'm glad that I chose this university, because distance education allows me to combine work, travel and study. I organize my own schedule and decide when to take exams. I can communicate with curators who always immediately answer all my questions. I recommend distance education for everyone who wants not only learn, but also do something else»

Natalia Hajduk, Poland
